## The BEST CONSTRUCTION / RENOVATION PROJECT of 2004

### MAST Construction

### Hudson County Correctional Center

### — 110,000 SF —

*Hudson County Correctional Center  
Renovation & New Building Addition rendering*

**MAST Construction** is the construction manager for the **Hudson County Correctional Center's** renovation and new building addition in Kearny, NJ. This \$40 million project is a result of overcrowded conditions at the medium security correctional center. Hudson County engaged MAST to manage the design and construction of a new five-story, 110,000 s/f dormitory/kitchen facility. This post-tensioned concrete building will foster the secure relocation of 585 inmates to a dormitory-style detention environment, while the new kitchen will service the entire population of 2,000 inmates at the correctional center. Security and fire protection systems will also be upgraded in the existing 750 cell facility. MZA/KMD is the project architect. ■
